- Clients, Suppliers, General Public, Employees and Shareholders.

By virtue of fully completing this interactive Environmental Policy template, Fabric Interface Limited has ensured that it remains legible and is fully identifiable.

This policy will be reviewed every six months.

Definitions

For the purposes of this document, the following terms apply:

Senior Management is defined as the Directors of the organisation.

Environmental aspects are the elements of Fabric Interface Limited's activities, products and services that can interact with the environment.

Environmental impacts are the changes to the environment that result from Fabric Interface Limited's environmental aspects.

Policy Statement

Fabric Interface Limited acknowledges that the environment can potentially be impacted by any of its activities, products and services. This policy sets out how the organisation will manage, monitor, measure and otherwise be accountable for its ongoing environmental performance.

In the implementation of this policy, Fabric Interface Limited will adhere to the requirements of relevant local, national and international law pertaining to the environmental aspects and impacts of the organisation and

ensure that this policy kept up to date in line with those requirements.

Fabric Interface Limited is committed to prevent pollution wherever possible and will ensure that as well as optimising new products, services and processes to facilitate this prevention, existing systems and processes are reviewed in order to identify areas for pollution prevention. For each product, service, system or process, this will be achieved by:

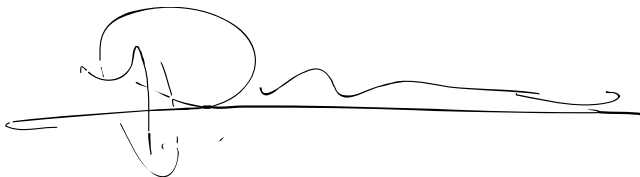

- eliminating the use of polluting materials or technologies;
- reducing the use of polluting materials or technologies;
- recycling or reusing materials within Fabric Interface Limited;
- transferring materials or waste outside of Fabric Interface Limited for recycling or reuse; and,
- where no other option is available, controlled disposal or incineration.

Fabric Interface Limited will integrate environmental management procedures, processes and planning with the general operations of the organisation to maximise the potential reduction of the organisations environmental impacts.

Fabric Interface Limited will ensure that where possible, products are designed and developed in such a way as to reduce the environmental impacts of their users.

Through the use of environmental performance evaluation procedures and key performance indicators, Fabric Interface Limited will seek continual improvement in its environmental performance. This will be achieved through the proper implementation of its environmental management system. The design, development and management of the environmental management system, related procedures and indicators is the responsibility of Senior Management and Directors.

It is the responsibility of the Directors to ensure that this policy is implemented throughout the organisation. It is the responsibility of the Directors to ensure that this policy is properly maintained and up to date.

A handwritten signature in black ink, appearing to be 'Mike Staines', written over a horizontal line.

Signed on behalf of Fabric Interface Limited by Mike Staines
